career objective

Dedicated and focused engineering student with a passion for programming, problem solving and challenges! My greatest strengths is the willingness to learn new things and my social side. Previous work experience as a developer, IT-technicians, retail sellers and cashier. Currently functionary of the sections committee responsible for the contact and cooperation with companies.

Looking for a service where I can further develop my skills in programming and problem solving, as well as get the opportunity to learn new. In group I am a cheerful, initiative and cooperative guy, with great commitment and hungry for new challenges.

education

2014–(2019)

Master of Science in Computer Engineering, 300 credits Faculty of Engineering LTH, Lund University

Expected graduation in June 2019

The education in Computer Engineering aims to meet the demand for engineers who are developing advanced computer technologies, systems and applications.

Course	Credits	Grade
Calculus in One Variable	15.0	4
Programming - Second Course	7.5	5
Object-oriented Modeling and Discrete Structures	7.5	4
Concurrent Programming	6.0	4
